	<u>1,404,217 03</u>

Balance in Treasury April 30, 1866,	<u>\$2,686,421 24</u>
-------------------------------------	-----------------------

This balance (\$2,686,421.24) is applicable to the payment of the following items, viz:—

Excess of loans and income obtained 1865-66, as stated under the head of "Treasurer's Balance,"	\$207,400 52

Total as above,	<u>\$2,686,421 24</u>

The actual balance to the credit of the "Committee on the Reduction of the City Debt," which is the Debt Sinking Fund, April 30, 1866, was \$2,748,365.01, from which the Treasurer advanced on Loans authorized by the City Council, but not negotiated, \$287,874.79, leaving the cash balance as stated on page 6, \$2,460,490.22. The total amount of the Debt Sinking Fund, April 30, 1865, was \$1,458,265.40; same date, 1866, \$2,748,365.01,—increase of the Fund since April 30, 1865, of \$1,290,099.61.

The total assessment of State, County, and City taxes for 1865, to meet the deficiency in the income during the financial year 1865–66, and to pay Boston's share of the State Tax of 1865 (\$1,592,501) was

Outstanding April 30, 1866,	<u>275,507 53</u>
Total as above,	<u>\$5,946,642 52</u>

The tax-bills were issued by the Treasurer October 1st, payable November 1, 1865, and the above statement gives indisputable evidence that our citizens have been prompt in paying the taxes which were assessed upon them for defraying the expenses of the various educational, correctional, pauper, police, health, and other departments of our municipality for the financial year 1865–66, and in sustaining its financial credit.

THE EXPENDITURES.

The *County Expenditures* during the year were \$173,050.06, and the revenue from the same source \$75,198.44—balance against the county of \$97,851.62. Of the expenditures only \$45,553.82 was paid on the Mayor's draft through the Auditor's office. By an act of the Massachusetts Legislature passed this year, all the Jail and Police Court accounts which have heretofore been audited and allowed by a Board of Accounts consisting of the Judge of Probate of Suffolk County, and the Police Court Justices, will in future be done so by the Board of Aldermen acting as County Commissioners, and paid in the usual manner through the Auditor's office. PUBLIC BUILDINGS ERECTED DURING THE YEAR.

The new City Hall was completed January 1, 1866, and all the officers of the city occupy offices in the building except the City Solicitor. The construction and furnishing account has been closed, and the total cost of this structure, including the furnishing of the same is \$505,191.42. The Police Station House in Lagrange Street, for Division No. 4, commenced in 1864, has been completed at a cost for land and building of \$63,653.25. The lot of land originally purchased for this Station House contained 8,400 square feet, of which 329 square feet were taken for the widening of Lagrange Street; 211 square feet for the widening of Eliot Street, and 2,819 $\frac{4}{5}$ feet have been sold for \$11,910.27, leaving the contents of the Station House lot 5,040 $\frac{6}{10}$ square feet. The trustees of the City Hospital under authority of the City Council, erected a new brick pavilion for contagious diseases, stable and autopsy room and coal shed, and completed the work on the grounds, &c., at a cost of \$57,067.39. Total cost of the City Hospital buildings and grounds, exclusive of lands, \$408,844.34. Steam Fire Engine House of brick, two stories high, for Company No. 10, located on the corner of River and Mount Vernon streets, at a cost of \$15,670.15. The new Grammar School-house on the corner of Saratoga, Bennington, and Prescott streets has been completed at a cost of building and ground of \$109,585.76, and is now occupied, and has been named the Prescott School-house. The Hawes, City Point, and Washington Village Primary School-houses, South Boston, were enlarged and altered at a cost of \$39,257.48. A new Primary School-house is in the process of erection in East Street, upon land purchased in 1864-65. Several lots of land have been purchased for the enlargement of school-house yards and the erection of new houses upon the same.

INTEREST AND PREMIUM ACCOUNT.

The total interest and premium account of the City for the year, which includes that and the exchange paid on the funded City Debt and the nominal Water Debt, the premium on the debt paid off and the interest on the temporary loans, amounted to \$889,397.69, against \$1,505,144.71, in 1864-65 — divided as follows, viz. :

Interest on the Funded City Debt,	\$382,261 13
Premium on do.	143,538 25
Exchange on do.	38,126 67
Interest on six per cent. Currency Loan,	41,990 00
Interest on Temporary Loan,	21,268 45
Premium on Funded City Debt paid off,	71,705 68
Interest on nominal Water Debt,	77,328 00
Premium on do.	22,243 50
Exchange on do.	90,936 01
Total interest and premium account paid 1865-66,	<u>\$889,397 69</u>

The highest premium paid during the year for gold was $46\frac{1}{8}$ and the lowest $25\frac{1}{8}$ on the dollar.

THE DEBT OF THE CITY.

The loans negotiated by the City Treasurer on account of City purposes amounted to \$597,150.00; for the construction of the Chestnut Hill Reservoir, \$115,000.00; total, \$712,150.00. Amount paid off, \$191,716.66 — being all that became due — showing a *net* increase of the funded City and nominal Water Debt of \$520,433.34. On loans authorized by the City Council but not funded, the Treasurer has made advances for the work being done under the authority of said loans, amounting to \$287,874.79, which advances are classified as *unfunded* debt. The total funded and unfunded debt of the City, April 30, 1866, was

	\$12,180,250 70
Of which the Water Works owe,	6,771,975 15
Leaving the City Debt,	<u>\$5,408,275 55</u>

The City Debt as above should stand as follows :

City Debt proper,	\$3,401,775 55
War Debt,	2,006,500 00
	<u>\$5,408,275 55</u>

The *funded* and *unfunded* debt of all descriptions has been increased during the year \$682,551.38, but the means on hand for paying off the debt having also been increased from \$1,621,255.41 in 1864-65 to \$3,039,590.32 in 1865-66, there has been an actual *net* decrease of the debt of \$735,783.53. The *net* debt which is the amount less the means on hand for paying it off, is \$9,140,660.38. The means on hand for the paying off the debt consists of the Debt Sinking Fund \$2,748,365.01; bonds and mortgages, all of which are considered good, \$291,225.31; total, \$3,039,590.32.

The *nominal* water debt outstanding is \$3,152,711.11 which is an increase of \$210,000 more than in 1864-65, principally

caused by the commencement of the construction by the Cochituate Water Board, under authority of an act of the Massachusetts Legislature and the City Council, of a new reservoir in the towns of Newton and Brighton, to cover an area of 126 acres, and to be of a capacity of 730,000,000 gallons. It is estimated that it will cost, when completed, \$901,364. The loan issued for the constructing this reservoir, which is called the "Chestnut Hill Reservoir," is known as the "Water Loan of 1865." The real debt of the water works being their actual cost and the annual expense of carrying on and extending the works, including the interest and premium paid, less the income received from all sources on account of said works, is \$6,771,975.15. The excess of the cost of carrying on the works and interest and premium paid over income received in 1865-66 was \$215,456.28; in 1864-65 it was \$301,645.90.

GENERAL REMARKS.

The foregoing gives a review of the operations of the financial departments of the city for the year 1865-66, and I am happy in being able to present to your notice so favorable a condition of the finances of our city.

The statements in detail of the City and County expenditures and income, the City Debt, of the City property and other accounts will be found under their appropriate heads.

In the appendix to this report will also be found some interesting information in relation to the cost of the Cochituate Water Works, the expenses of carrying on the Public Institutions and the Public Schools, concerning public vaccination, and the Lamp Department; also details relating to the assessment of taxes, and the Assessors' valuation of the real and personal property of the city; also details of the census taken in 1865 for the new division of wards which was made by the City Council in

November last, under which division the members of the City Council for this year were elected.

The table of "Appropriations and Payments" and of "Estimated and Actual Income," which immediately follow, embrace in brief the transactions of the financial year, and the balances which are carried to the "Debt Sinking Fund."

Respectfully submitted,

ALFRED T. TURNER,

Auditor of Accounts.

The above amount of \$1,064,348.17 resulting from the actual business of the year, belongs to the Sinking Fund, or *Committee on the Reduction of the City Debt*, and is placed at their disposal, in conformity with the requirements of the ninth and tenth sections of the Ordinance on Finance, R. O. pages 198 and 199.

This Ordinance requires that any excess of Income over the original *estimated* Income, or any excess of Appropriations (original or subsequent) over the *actual* payments, should be carried to the credit of the Committee on the Reduction of the City Debt, and be applied towards the extinction of the Debt, *and to no other purpose whatever.*

By the same Ordinance it is provided that no money can be drawn for by the Mayor, or be paid by the Treasurer, unless the same has been previously appropriated by a special vote of the City Council; hence the necessity of applying to the Council for additional means, if from any cause an *Original Appropriation* falls short. The additional means thus asked for can only be furnished by an *authorized* transfer from some existing appropriation which can spare it, or by a *specific loan*. In this manner the City Council retain a *knowledge and control* of all the expenditures, as none can be made unless an appropriation for the same is expressly authorized by them.

WATER DEBT.

APRIL 30, 1866.

In addition to the CITY DEBT, as herein stated, there exist Loans, made on account of the WATER WORKS, as follows, viz.:

On the issue of BOSTON WATER SCRIP, authorized by Legislative Acts of 30th March, 1846, and 1st May, 1849, as follows:

On Bonds of <i>One Thousand Dollars</i> , each payable in Boston, financial year 1870-71, to the amount of	\$688,000 00
--	--------------

On <i>Sterling Bonds</i> , bearing interest at the rate of 4½ per cent to the amount of £400,000, in sums of £100, £200, and £500 each, payable in London, in financial year 1872-73, for which we have realized here, including Exchange,	1,949,711 11
--	--------------

Making the Total remaining Debt on 30th April, 1865, contracted on account of the construction of the Water Works,	2,637,711 11
--	--------------

To which is to be added loan of 1860-61 on city notes of \$1,000 each, bearing interest at 5 per cent, authorized by an Order of the City Council of 30th June, 1858, to defray the expense of laying a <i>New Main</i> from the Brookline Reservoir to the city, as stated in Report No. 49, page 220; due 1877-78.	\$305,000 00

Also add issued under said order and used for city purposes, due financial year 1878-79,*	95,000 00
	400,000 00

<i>Amount carried forward,</i>	\$3,037,711 11
--------------------------------	----------------

* Of the \$400,000 issued as provided by the order of June 30, 1858, only \$305,000 was used for the purpose, but July 14, 1860, a loan of \$16,000 was obtained for raising the pipes on Tremont Street, and one of \$5,000, Dec. 8, 1860, for laying a new pipe on Beacon Street; these sums, together with \$74,000, obtained this financial year (1865-66) under loan orders of Dec. 13, 1864, and Sept. 9, 1865, for purchasing land for the Chestnut Hill Reservoir in the towns of Newton and Brighton, make up the balance of \$95,000 of the loan of June 30, 1858. This issue of City Debt certificates for actual expenses of construction of the Water Works will cover the balance of the loan issued as Water Loan 1866-61, and so charged by the Treasurer, and by so doing the Auditor's City and Water Debt accounts now agree with those of the Treasurer.

The amount issued for the construction of the Chestnut Hill Reservoir, over the \$74,000, will be charged to the cost of the Water Works and issued as Loans for that purpose.

FUNDED CITY DEBT, as per statement on pages 138,	
139,	\$8,739,664 80
UNFUNDED DO., as per statement on page 139,	287,874 79

The classification of the Consolidated Debt of the City, *funded* and *unfunded*, April 30, 1866, is as follows:

	<hr/>

To meet which there is a Cash balance to the credit of the Committee on the Reduction of the City Debt (or Sinking Fund), exclusively applicable to this purpose, as per statement on page 135, of \$2,748,365.01.

There are also Bonds and Mortgages on hand to the amount of \$291,225.31, which amount is specially appropriated to this object by the Ordinance on Finance. See *City Property*.

LAMP DEPARTMENT.

The whole cost for lighting the streets of the city during the financial year 1865-66 was \$211,025.77 against \$192,071.04 the previous year. On the 30th of April, 1866, the city was lighted with 3,547 gas, and 1,389 oil lamps; being an increase of 130 gas and 26 oil lamps over the previous year. The lamps are located as follows:

In City proper,	2,827 gas, and 588 oil.
In South Boston,	386 gas, and 457 oil.
In East Boston,	334 gas, and 344 oil.

The price for gas in the city proper, and in South and East Boston, is $1\frac{1}{4}$ cents per hour. The gas lamps, except those at East Boston, which are lighted by the city, at the same rate, are all cleaned, lighted and extinguished by the gas companies, who are allowed \$2 per night, for every 100 lamps.

The gas companies also have the sole charge of the underground *Service Pipes*. They are laid and kept in repair by the various companies, but at the expense of the city.

The oil lamps are lighted and cleaned by the contractor for the supply of the oil. The oil contractor is allowed at the rate of $2\frac{1}{4}$ cents per lamp per night for this service. The price for the oil is 1 cent per hour.

PUBLIC VACCINATION.

The office of the City Physician is in the basement story of the City Hall, and his office hours are from 10 to 12 o'clock, daily.

The number of persons vaccinated and re-vaccinated free of expense, during the year ending 30th April, 1866, was 1,382; previous year, 3,643.

The number of children examined and furnished with the Certificate of Vaccination required to entitle them to enter the Public Schools, was 405; previous year, 443.

The number of gratuitous supplies of Vaccine Virus to physicians belonging to Boston, has been 235; previous year, 305.

The various city institutions, public hospitals and other charitable institutions, have also been supplied with Vaccine Virus, at sundry times, as necessity required. In consequence of the liberal supply of Virus from this office to physicians and to the U. S. Army, the number of vaccinations during the year by private physicians must have been very large.

The duty of attending all cases of sickness at the Suffolk County Jail is assigned to the City Physician.

TRUST FUNDS.

FRANKLIN FUND,

FOR THE ENCOURAGEMENT OF YOUNG MECHANICS,

As it stood March 21, 1866.

DR. FRANKLIN, in his will, gave the inhabitants of Boston, in 1791, one thousand pounds sterling, which he directed to be loaned in sums of not more than £60 nor less than £15, to one applicant, at 5 per cent. interest; to be repaid in annual instalments of 10 per cent. each. These loans are restricted to "Young married artificers, under the age of 25, who have faithfully served an apprenticeship in Boston, so as to obtain a certificate of good moral character, from at least two respectable citizens, who are willing to become their sureties in a bond for the repayment of the money."

The Doctor calculated (not anticipating any losses) that the one thousand pounds would increase in the course of one hundred years, to one hundred and thirty-one thousand pounds, (\$582,000); and of this amount he would have the managers lay out £100,000 in public works; and the remaining £31,000 he would have continue on interest for another term of one hundred years, at the end of which time he calculated that the fund would be £4,610,000; of which, £1,610,000 was to be at the disposition of the inhabitants of the Town of Boston, and the balance to the Government of the State.

The Trustees under the will are the Selectmen (now Board of Aldermen), united with the ministers of the oldest Episcopalian, Congregational and Presbyterian Churches in the Town of Boston. The first loan was made in May, 1791.
